

Inspection Documentation

Please have the required documentation placed in this folder if applicable, ready to hand to the Fire Department personnel the day of your inspection.

The documents listed below will need to be in order from the 1st listed being towards the front and the last listed being towards the back.

1. Fire hydrant inspection documentation
2. Fire alarm system inspection documentation
3. Fire sprinkler system inspection documentation
4. 90 minute emergency light load test
5. Elevator inspection documentation
